

交通部觀光局花東縱谷國家風景區管理處 中華民國九十六年一月

花東縱谷位於台灣東部,介於中央山脈與海岸山脈之間,貫穿花、東雨縣,涵蓋花蓮縣的秀林鄉、壽豐鄉、鳳林鎮、光復鄉、萬榮鄉、瑞 穗鄉、卓溪鄉、玉里鎮、富里鄉,以及台東縣的池上鄉、關山鎮、鹿野鄉、海端鄉、卑南鄉、延平鄉等15個鄉鎮。由於自然、人文景觀極具特 色,且環境未受污染,觀光遊憩資源豐富,於民國85年5月30日,基於維護自然生態與珍貴觀光資源的前提,經核定設立花東縱谷國家風景區。

花東縱谷因地處歐亞大陸陸板塊與菲律賓海板塊相撞的縫合處,產生許多斷層帶,加上花蓮溪、秀姑巒溪和卑南溪三大水系構成綿密的網路,山高水急,因而形成了峽谷、瀑布、曲流、河階、沖積扇、斷層及惡地等不同的地質地形,並造就了許多壯麗的自然景觀。

因應自然環境而發展出來的產業風光,讓花東縱谷有了熱情的生命力,田園、茶園、牧場等的景色,因為有純淨的大地供養,煥發出特別迷人的風采。賦予花東縱谷這塊土地活躍生命力的,還有史前文化與原住民文化,掃叭石柱、公埔遺址等,為花東縱谷悠悠歷史;而阿美族、布農族、太魯閣族及卑南族這些大地的子民們,運用與大自然共存智慧與其他相繼來此的族群,共同豐富了縱谷的人文情懷。

每一處目光所及,盡是讚嘆與美麗;每一口呼吸,盡是新鮮與純淨;每一個感受,盡是舒適與溫馨;每一個快門,盡是感動與眷戀;這就是花東縱谷淨土的魅力。現在,透過本書,邀請您來體驗淨土的芬芳,也期待下一個快門,有您入鏡!

Preface

The beautiful East Rift Valley is a land compiled of mountains, valley, hot springs, along with fertile plains with paddy fields, day lilies, pomelos and tea plantations.

The appropriate authorities have designated the region a national scenic area, with the Scenic Area Administration founded in 1 May 1997. The East Rift Valley is the 5th National Scenic Area to be established in Taiwan after the Northeast Coast National Scenic Area, the East Coast National Scenic Area, the Dapeng Bay National Scenic Area, and the Penghu National Scenic Area.

The East Rift Valley is situated between the Central Mountain Range and the coastal mountains on the east. The area extends from the Mugua River in the north to the Taitung boundary in the south.

The main inland route between Hualien and Taitung (Provincial Highway No. 9) runs through the region, this 158 kilometer route is often referred to as a Corridor due to its surrounding verdant mountains and fertile fields.
